

**Initial setup:**  
20 balls on each side  
12" wall across arena

**End of round:**

The 4 balls outside of arena do not count for points.

The ball touching the red robot counts to the blue robots points

The red robot has 17 points for having 17 balls on the other side of the wall

The blue robot has 19 points for having 19 balls on the other side of the wall

The blue robot wins the round!!
